Shipping Instructions

Assemble all of the project elements that you plan to use. Choose a sturdy shipping box that best matches the space needed by your project. Stuff the shipping box with adequate fill, enough to stop the contents from moving around. Make sure you have included this form in the shipping box. If you are in Canada, I recommend using Canada Post, EXPEDITED, with insurance and a tracking number. If you are in the USA, you can use USPS, but I recommend using either UPS or FedEx. When I receive your package I will email you indicating receipt of your materials and your order details.
